

## Advanced topics in openLCA

GreenDelta will be holding a training course on May 4, 2018 covering advanced topics in openLCA.

### Meet the developers

GreenDelta has been developing openLCA since 2006. We continuously improve the software, expand its features and capabilities and keep it up-to-date with current life cycle assessment (LCA) practice. We are at the LCA forefront, offering specialized features such as regionalized LCIA or the ecoinvent 3.4 database. Next to software development, GreenDelta also offers sustainability consulting services such as guided case studies, research, critical reviews, EPDs and data management solutions.

### Objective + Target Audience

The aim of the course is to introduce you to the latest advanced features available in openLCA, with a strong focus on regionalized life cycle impact assessment, but also other topics (e.g. life cycle costing, social LCA ..) will be covered on demand.

### Prerequisite

As this is an advanced course for openLCA users, knowledge in using the software is mandatory to be able to follow the course.

### Scope

The course will cover the following topics:

- Why and when to use regionalization
- Regionalization of Lcia methods
- using the AWARE method as example
- Calculation procedure for regionalized Lcia
- Interpretation of regionalized results
- Limitations of regionalization
- Introduction to Life Cycle Costing in openLCA (on demand)
- Social Life Cycle Assessment in openLCA using the PSILCA database (on demand)
- Other topics are also possible

## GreenDelta

Dr.-Ing. Andreas Ciroth

We highly recommend you bring a notebook to the training that meets the requirements for the newest version of openLCA (see the user manual to view the requirements). Following the course we will provide our presentations as a pdf file. You will also receive a Certificate of Participation from GreenDelta.

## Time and Venue

The course will take place in Berlin at the following time:

Friday, Apr. 13, 2018: 9am to 5pm

The training will take place at our office located in Muellerstrasse 135, 13349 Berlin.

## Registration, Fees and Accommodation

To register for the course, please fill out the registration form available online at [www.openlca.org/training](http://www.openlca.org/training) and return it to us per fax, mail or email.

The fee for the 1 day course is 800 EUR (+VAT) per person. Students and faculty members of educational institutions using the software for academic purposes will be charged a reduced fee of 650€ (+VAT). If you also participate in the training on Apr. 11 and 12, 2018, you will receive a 25% discount on this advanced course.

This fee includes course materials, coffee breaks and lunches. Accommodation and dinner costs are not included in the price. Information about hotels in the area can be found at <http://www.openlca.org/trainings/hotels-nearby>.

If you have any further questions, please contact us at [training@greendelta.com](mailto:training@greendelta.com).

We look forward to meeting you soon!
