

Thank you for ordering an academic LCA database from openLCA Nexus, for academic use.

According to the EULA of the database you ordered, you need to confirm the following:

- you are ordering the license on behalf of an academic institution, and
- the license will be used for academic purposes only, by students and staff registered at that institution.

Since you ordered a licence for non-OECD countries, you also need to confirm that the academic institution is not in an OECD country*.
