openLCA.conf 2025

10 – 11 April | Berlin, Germany
Sponsorship packages

openLCA.conf 2024 was already a success. We sold out more than a month before the start of the conference, and had a very high ratio of people attending and presenting. We had over 150 participants, and this year we aim to nearly double the number. You can check a review of the first edition of the conference in this link: https://www.openlca.org/openlca-conference/

After a first edition quiet from advertisement, this year's openLCA.conf will count with the option for sponsorship. A big part of the earnings from sponsorship packages will go to sponsor abstract applicants that cannot make it to Berlin due to their financial status. With this in mind, we try to make the conference more inclusive.

Aside from having a good conscience over helping others to come to the conference, the sponsorship packages can be very attractive to those wanting to make their brand more visible to our LCA community. We aim to give you the attention and audience you need for your brand.

Please refer to the following options. You can book through openLCA Nexus (LINK).
