openLCA

Why the Trainers Academy

We have seen a **great increase in the interest for openLCA** and trainings. We now run (in English language):

- Monthly trainings for "basic and intermediate" level*
- Periodic "advanced" trainings
- Private trainings

Still, we see that this is **not enough to cover the demand**, and we would also like to **approach regions** with:

- Other languages
- Other time zones
- Other economic areas

openLCA

Who can take part?

Everyone is welcome to join the training.

We will make a test after the training to certify our trainers, and we see **more possibilities of success** for people that:

- Have a good experience in modelling with openLCA, and sustainability.
- Have attended our public trainings (it's never too late to do so).
- Have experience with teaching, or find themselves as good candidates to do so.

openLCa

What is the content?

- Introduction to the Academy concept
- Introduction to our "basic and intermediate"* training material
- Best practices before, during and after trainings
- Common trainees' mistakes during trainings
- Common mistakes in openLCA -> tips and tricks
- Selected advanced topics (e.g. end of life, system expansion)
- Clarify any doubts about openLCA
- Feedback from Academy participants
- Test (written and oral)

* Find more about our trainings content in our website: https://www.openlca.org/trainings/

openLCA

When will it happen? And where?

The training will take place:

- **June 14th – half a day**
- **June 15th – half a day**

Test will be:

- On the **week of 27th June**
- A written, supervised exam
- An oral exam

The training and examination will be held **online**.

openLca

How to become a certified trainer & next steps?

1. Attend our Trainers Academy in June

2. To secure a spot, make sure to order and pay your place in Nexus.
   (https://nexus.openlca.org/service/openLCA%20Trainings)

3. Pass the test -> obtain the certification.

Once you pass the test... congratulations! You have been recognized by GreenDelta to give "basic and intermediate" openLCA trainings.

- You will obtain the training material from us.
- You can now start organizing your own trainings.

openLCA

Benefits

We can see a really **good business case** for you:

- You will get an **official certificate** from GreenDelta.
- You get our **training material**.
- You have **full autonomy** to decide on your **training schedule**.
- You can **decide on the price** of your trainings.
- There will be **no commission from us** on your own trainings.
- You also get your name and contact in a **dedicated trainers page** in our website.
- You get extra visibility to the openLCA community. (Nexus)

openLca

Cost

You can participate in the Trainers Academy for

- **2,800 EUR**
- **2,300 EUR** (middle income countries*)
- **1,400 EUR** (lower income countries*)

Trainers must present proof of permanent residency in these countries to obtain discounts.

Periodically (no more than once a year) there will be a renewal of certification.

openLCA

Last points

- If you would like to get visibility, or simply not deal with payment bureaucracy, **managing** your trainings and payments can be done **through Nexus** for a commission.

- **You can decide on the price** of your training.

- It is allowed to accept openLCA students from other regions.

openLCA

Annex

Table E
Economies by per capita GNI in June 2019[a]

High-income		Upper-middle-income		Lower-middle-income	
Australia	Latvia	Albania	Jamaica	Angola	Lesotho
Austria	Lithuania	Algeria	Jordan	Bangladesh	Mauritania
Bahamas	Luxembourg	Argentina[b]	Kazakhstan	Bhutan	Mongolia

FAQ

What topics will I be able to teach?

This training certifies you for "basic and intermediate" content. Find more about our trainings content in our website, https://www.openlca.org/trainings/ .

Can I teach other levels apart from "basic and intermediate"?

Eventually, we hope that many trainers will want to expand their training capabilities to other levels, and topics. For now, we will consider each case individually.

Can I re-take the exam if I fail it?

Yes, once, for a cost of 500€*.

What about renewing my certification?

The certificate will have a year stamp on it. Renewal is not mandatory, but of course recommended as one will get updated training material too. Renewal of the certification will be periodic, following big updates in our software. It will not be more often than once a year.

How many people are allowed per Trainers Academy?

To ensure the quality of the training, there will be a max. capacity of 10 spots handed out on a first come first served basis.

We will have another trainers academy if we cannot meet the interest and demand of future trainers.

Can I translate the slides?

Of course! We encourage everyone to give trainings in their local language, as determined by their demand. We also want to coordinate this with our trainers.

*400€ for middle-income countries, 250€ for lower-income countries.
